

REGULATORY COMPLIANCE ASSESSMENT & AUDITING

HELP!

HOW CAN WE HELP YOU?

- **Regulatory Compliance Assessments**

We customize all our evaluations to meet your specific business, risk management, and security objectives while maximizing and exploiting your existing investments and infrastructure. We will assess your current state and review the requirements for regulatory compliance, to include compliance standards such as SOX, HIPAA, PCI, or FISMA.

- **Internal Auditing and Support**

Our seasoned IT and IT Security auditors can review your policies, user access controls, and risk management procedures. After identifying possible violations we can assist you in implementing technical solutions and training opportunities or recurring internal auditing to ensure future compliance.

- **Business Process Compliance Management**

Our end-to-end approach coordinates business process management and compliance systems for a complete package that keeps your business working efficiently and in complete compliance. The goal is to establish your organization for a self-sustaining level of operations that reduces the risk caused by an infringement of laws or internal misappropriations.

- **Business Value**

- Measure compliance to IT controls related to relevant regulations and frameworks
- Delivers actionable intelligence
- Enables response to areas that have fallen out of compliance
- Helps avoid the consequences of a failed audit

WE'RE ON YOUR SIDE

Regulatory compliance is the unified goal of corporations and public agencies to comply with laws and regulations. An increasing number of compliance requirements put significant pressure upon an organization to demonstrate compliance and protect it from risk. A compliance audit, which is a comprehensive evaluation of an organization's adherence to regulatory procedure and protocol, can assist in ensuring that an organization can demonstrate compliance at all stages.

The Newberry Group has the expertise to ensure that your organization has the policies and operating procedures in place that allow for compliance at every stage.
